The following questions consist of pairs of contrasting attributes that may apply to the product. The						
The following questions consist of pairs of contrasting attributes that may apply to the product. The ircles between the attributes represent gradations between the opposites. You can express your greement with the attributes by ticking the circle that most closely reflects your impression.						
greeners with the attributed by tioning the order that most diodely reflecte year impression.						
example:	attractive		х			unattractive
житрю.	attractive		^			unattractive
This response would mean that you rate the application as more attractive than unattractive.						
This response would mean that you rate the application as more attractive than unattractive.						
Please decide spontaneously. Don't think too long about your decision to make sure that you convey						
our original impression.						
Sometimes you may not be completely sure about your agreement with a particular attribute or you hay find that the attribute does not apply completely to the particular product. Nevertheless, please tick						
circle in every line.						
is your personal opinion that counts. Please remember: there is no wrong or right answer!						
START ->	annoying					enjoyable
